

IMIDASECT

▶ GEL BAIT INSECTICIDE AGAINST COCKROACHES

Contains: 2.15% Imidacloprid
FOR USE ONLY AS AN INSECTICIDE
FOR USE ONLY BY PROFESSIONAL OPERATORS

DESCRIPTION

IMIDASECT is a ready to use insecticidal bait for the control of cockroaches.

Target insects:

Cockroaches (*Blattella germanica*, *Blatta orientalis*, *Supella longipalpa*, *Periplaneta americana*)

Mode of action:

The active ingredient, imidacloprid, acts by binding to the insect's neurons. This binding causes a disturbance in the transmission of nerve impulses which is lethal to the target insect.

Cockroaches are attracted by nutritional ingredients in this product, cockroaches come into contact with the gel and spread it around as they move contaminating their peers. Poisoning occurs through contact and ingestion. Death of all individuals occurs within ten days, regardless of the development stage (larvae, juveniles, adults).

Under normal conditions, gel drops remain active and palatable for about 2 months.

Use instructions:

Before treatment, remove all natural sources of food for cockroaches (waste, food scraps, etc.) from the infested area to encourage the ingestion of the gel.

Apply the gel to identified areas but also between food sources as well as warm (<50 °C) and humid sheltered areas (corners, cracks, crevices, air ducts, behind baseboards and appliances, along pipes, close to water points, etc.).

During inspections check the treated area and, if necessary, replace the gel used as cockroaches leave secretions and faeces to attract conspecifics.

The gel can be applied locally without interrupting any activity in the treated local.

STATUTORY CONDITIONS OF APPROVAL RELATING TO USE.

FOR USE ONLY AS AN INSECTICIDE
FOR USE ONLY BY PROFESSIONAL OPERATORS

TARGET SPECIES	NORMAL INFESTATION LEVEL	HIGH INFESTATION LEVEL
German and striped cockroaches	1 drop of 0.1 g per m ²	2 drops of 0.1 g per m ²
Oriental and American cockroaches	2 drops of 0.1 g per m ²	3 drops of 0.1 g per m ²

Note : 1 drop of 0.1 g is equivalent to 5 mm diameter.

UK - Users must comply in full with all the legal responsibilities under the Control of Pesticides regulations 1986 (as amended), including complying with all Condition of Approval.

READ ALL PRECAUTIONS BEFORE USE

HSE 9694

PCS 97487

This product is approved under The Control of Pesticide regulations 1986 (as amended) for use as directed.

Intended uses: IMIDASECT is suitable for the pest control treatment in areas where insects congregate in domestic premises, caves, public buildings, commercial premises, (including hotels and kitchens), storage areas, industrial warehouses and vehicles used in transportation (including ships, planes and trains)

Remarks: Do not apply the gel near food, utensils and surfaces that come into contact with foodstuffs.

Do not apply the gel in areas where regular cleaning can move the bait to the surfaces that come into contact with foodstuffs.

Do not apply the gel in areas regularly cleaned with water as the washing can remove the gel deposit.

Do not apply the gel in areas recently sprayed with insecticide.

Do not spray insecticide on the gel.

The application of gel on the textile can cause discoloration.

Avoid excessive contamination of coveralls

Storage: KEEP IN A SAFE PLACE

Keep out of the reach of children.

Keep away from food drink and animal feedingstuffs.

Keep the product in its original packaging. Under these conditions, IMIDASECT can be stored for 4 years.

Packaging: The packaging must be disposed as hazardous waste and is the sole responsibility of the holder of that waste. See special instructions/Safety Data Sheet.

Precautions: DO NOT USE where food, feed or water could become contaminated.

PREVENT ACCESS TO BAITS by children and animals.

Wear suitable protective gloves

Avoid contact with skin.

Do not empty into drains.

REMOVE OR COVER ALL FISH TANKS AND BOWLS before application.

HAZARDOUS TO BEES

USE ONLY in positions inaccessible to children and animals.

FOR INDOOR USE ONLY

This material and its container must be disposed of in a safe way.

Do not apply the gel to surfaces where food is stored, prepared or consumed.

Protect food, cooking utensils and cutlery contamination during application.

Do not contaminate ponds, waterways or ditches with the product or cartridges.

First aid: After using IMIDASECT, WASH HANDS AND EXPOSED SKIN before meals and after use.

If swallowed, seek medical advice immediately and show this container or label.

Change contaminated clothing.

After skin contact: Wash skin with soap and plenty of water immediately.

After eye contact: Wash eyes thoroughly with water. Consult an ophthalmologist.

After swallowing: Call a doctor immediately.

IMIDASECT (contains 2.15% w/w Imidacloprid)

EUH208 - Contains 1,2-benzisothiazol-3(2H)-one. May produce an allergic reaction

WARNING

H317: May cause an allergic skin reaction.

H411: Toxic to aquatic life with long lasting effects.

P272: Contaminated work clothing should not be allowed out of the workplace.

P273: Avoid release to the environment

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P302 + P352: IF ON SKIN: Wash with soap and water

P333+P313: If skin irritation or rash occurs: Get medical advice/attention.

P363: Wash contaminated clothing before reuse.

P391: Collect spillage.

P501: Dispose of contents/container according to local/national/international regulations.

The COSHH (control of Substances Hazardous to Health) Regulations 2002 (as amended) apply to the use of this product at work.

To avoid risks to man and the environment, comply with instructions for use. Important:

Use insecticides with precaution. Before use, read the label.

Respect the uses, doses, conditions and precautions on the packaging which have been determined based on product characteristics and applications for which it is recommended. The treatment should be performed according to good practice taking into account materials used, application conditions, product mix, etc.

The manufacturer guarantees the quality of its products sold in their original packaging.
